

sleeping environment and bed

rating

tested hotel room	room number 350 with a view of the vineyards
overall assessment	my overall impression of the quality of sleep in the hotel room was very good, I can recommend it so much. The hotel room scored with the comfortable mattress, a pillow menu in the room would have been desirable.
room temperature air conditioning available	yes, my visit to this hotel was in november. The air conditioning worked perfectly. The desired room temperature is established in automatic mode. It is possible to open the windows of the room completely, which is always very helpful for ventilation or cooling. Unfortunately, the electric room heater is relatively noisy, but you can turn it off overnight to sleep.
silence in the room - soundproofing	
noise of mini-bar fridge ★★★★★ = noises more or less absent	mini bar not available
air conditioning noises ★★★★★ = noises more or less absent	★★★★★ noises from the air conditioning and thus the cooling system in the background in automatic mode are relatively clearly audible. It is advisable to switch off the air conditioning for sleeping. The easiest way is via the fan button by setting it back to "0", then the air conditioning switches off
soundproofing regarding street noise, television, noises from neighboring rooms etc. ★★★★★ = noises more or less absent	★★★★★ the soundproofing of the room is good. Noises from the neighboring room were not audible during my stay
possibility of darkening the room	
darkening Quality ★★★★★ = the room can be almost completely darkened	★★★★★ the hotel room can be darkened by a blackout curtain, so you can sleep in the room during the day. The curtain darkens well, it's not completely dark.

mattress properties	
mattress firmness	felt medium firm mattress, with another softer topper, which you can order at the reception, you could make it even softer. But from my point of view it was not necessary because the mattress firmness was ideal for me. The king size bed is 180 cm wide.
there is an opportunity for improvement with a topper (this makes the mattress a little softer)	yes
pillows	
pillow menu	no pillow menu in the room
what types of pillows?	there are 2 synthetic pillows and 2 feather pillows per bed
